# PREVENT

camden county

ADDICTION AWARENESS TASK FORCE

Making It Better, Together.

Someone dies from suicide every 12 minutes—and over the past two decades, suicide rates have increased in every state across the country. For the first time in recent generations, life expectancy is decreasing due to suicide (SAMHSA). According to the latest research:

- There were 1.4 million attempts and more than 47,000 deaths from suicide.
- Suicide is at its highest level and is still rising.
- Rural counties are being hit the hardest with suicide rates double the rate in urban counties.
- There has been an alarming 50% increase of suicide rates among women.

Suicide touches whole communities. Each person who dies by suicide leaves behind 135 people who knew that person—and the impact of suicide and the bereavement that follow.

**Suicide can touch anyone, anywhere, and at any time.**

**But it is not inevitable. There is hope.**

By starting the conversation and providing support to those who need it, we all can help prevent suicide and save lives. If you or someone you know is thinking about suicide—whether you are in crisis or not—call or live chat the **National Suicide Prevention Lifeline** at **1-800-273-TALK (8255)**. **Veterans Crisis Line: 1-800-273-8255**

# PREVENIR

camden county

ADDICTION AWARENESS TASK FORCE

Making It Better, Together.

Cada 12 minutos alguien muere de suicidio, y en las últimas dos décadas, las tasas de suicidio han aumentado en todos los estados del país. Por primera vez en las últimas generaciones, la esperanza de vida está disminuyendo debido al suicidio (SAMHSA). Según las últimas investigaciones:

- Hubo 1,4 millones de intentos y más de 47.000 muertes por suicidio.
- El suicidio está en su nivel más alto y sigue aumentando.
- Los condados rurales están siendo los más afectados con tasas de suicidio que duplican la tasa en los condados urbanos.
- Ha habido un alarmante aumento del 50% de las tasas de suicidio entre las mujeres.

El suicidio afecta a comunidades enteras. Cada persona que muere por suicidio deja atrás 135 personas que conocían a esa persona, y el impacto del suicidio y el duelo que siguen.

**El suicidio puede tocar a cualquiera, en cualquier lugar  
y en cualquier momento. Pero no es inevitable. Hay esperanza.**

Al iniciar una conversación y brindar apoyo a aquellos que la necesitan, todos podemos ayudar prevenir el suicidio y salvar vidas. Si tú o alguien que conoces está pensando en el suicidio si usted está en crisis o no, llame o chatear en vivo el **National Suicide Prevention Lifeline** al **1-800-273-TALK (8255)**. Línea de Crisis de Veteranos: **1-800-273-8255**.

**COVID-19 &  
DOMESTIC VIOLENCE**

camden county

ADDICTION AWARENESS TASK FORCE

Making It Better, Together.

According to the National Coalition Against Domestic Violence (NCADV), "domestic violence is prevalent in every community, and affects all people regardless of age, socio-economic status, sexual orientation, gender, race, religion, or nationality. Physical violence is often accompanied by emotionally abusive and controlling behavior as part of a much larger, systematic pattern of dominance and control. Domestic violence can result in physical injury, psychological trauma, and even death. The devastating consequences of domestic violence can cross generations and last a lifetime."

Since late March, most of us in NJ have had to for the most part shelter-in-place. There are many side effects of the covid19 crisis. Every facet of our lives currently changed. Our places of worship are closed, jobs are altered, schools are closed, and only essential businesses are open. Many who would be out of the home are now remaining in their homes. All relationships offer positives and negatives. Many relationships are altered because of covid19.

Additionally, the insecurity of job losses and social isolation impacts substance use and mental health. Services directed at mitigating those two issues are restrained. However, treatment is still available. Our contracted treatment facilities continue to serve the public

Nevertheless, complying with the 'stay-at-home' mandate and remaining in place poses a risk. Being closed in with someone who is abusive whether emotionally or physically is extremely difficult.

Help is available

**National Domestic Violence Hotline: 1-800-799-7233**

**New Jersey Domestic Violence Hotline: 1-800-572-7233**

**Camden County Women's Center: 856-227-1234**

# COVID-19 & VIOLENCIA DOMESTICA

camden county

ADDICTION AWARENESS TASK FORCE

Making It Better, Together.

Según la Coalición Nacional contra la Violencia Doméstica (NCADV), "la violencia es frecuente en todas las comunidades, y afecta a todas las personas independientemente de su edad, situación socioeconómica, orientación sexual, género, raza, religión o nacionalidad. La violencia suele ir acompañada de un comportamiento emocionalmente abusivo y controlador como parte de un patrón mucho más grande y sistemático de dominio y control. La violencia doméstica puede resultar en lesiones físicas, trauma psicológico, e incluso la muerte. Las consecuencias devastadoras de la violencia doméstica pueden cruzar generaciones y durar toda la vida".

Desde finales de marzo, la mayoría de nosotros en NJ hemos tenido que, en su mayor parte, ir a lugares de refugio. Allí son muchos los efectos secundarios de la crisis de Covid19. Todas las facetas de nuestras vidas han cambiado actualmente. Nuestros lugares de culto están cerrados, los trabajos se alteran, las escuelas están cerradas, y sólo empresas esenciales están abiertas. Muchos de los que estarían fuera de casa ahora se quedan en su Casas. Todas las relaciones ofrecen positivos y negativos. Muchas relaciones se alteran debido a covid19.

Además, la inseguridad de la pérdida de puestos de trabajo y el aislamiento social afecta el uso de sustancias y salud mental. Los servicios dirigidos a mitigar estas dos cuestiones están restringidos. Sin embargo, el tratamiento aún está disponible. Nuestras instalaciones de tratamiento contratadas continúan sirviendo al público.

Sin embargo, el cumplimiento del mandato de "permanecer en casa" y permanecer en su lugar representa un riesgo. Estar encerrado con alguien que es abusivo, ya sea emocional o físicamente es extremadamente difícil.

## La ayuda está disponible
